the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which it is funded.

The public sector is a complex organisation, and it is difficult to understand how it works. This paper aims to provide a brief overview of the public sector in the UK, and to discuss the challenges that it faces. The paper is divided into three main sections: the first section describes the public sector in the UK, the second section discusses the challenges that the public sector faces, and the third section discusses the ways in which the public sector can be improved.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995. The public sector has also become an important employer of women, with 1.5 million women employed in the public sector in 1995, compared with 1.2 million in 1980.

There are a number of reasons why the public sector has become an important employer of women. One reason is that the public sector has a high proportion of women in its workforce. In 1995, 75% of the public sector workforce were women, compared with 65% in 1980.

Another reason is that the public sector has a high proportion of women in its senior management. In 1995, 35% of the public sector senior management were women, compared with 25% in 1980. This is a significant increase, and it suggests that the public sector is becoming more gender equal in its senior management.
